Ultrasonic level meter with GSM cellular communication

Applications

Diesel Tank Monitoring
• Tracks diesel inventory in large tank farms
• Alerts for pre-defined levels (e.g. 10% from empty)
• Alerts for rapid fuel consumption
• Reports refueling quantities

Sewer Level Meter
• Simple installation, no road digging, no moving parts
• Battery powered for years of operation
• Detects and warns against sewer blockage and overflow
• Reports sewage trends and pipe usage

Water Reservoirs and Rivers
• Warnings to prevent premature reservoirs dry-out
• Detect and warn against flooding conditions

Benefits
• A complete, compact and unified solution
• One system fits all tank shapes and dimensions
• Supports volume information and customized alert
• Open communication interface for third party SCADA software
